

RESTORATIVE PRACTICES JOURNEY

Virtual Convening

Topic: ON THE OTHER SIDE OF THE COVID-19 PANDEMIC

What Do We Want Our Schools, Community Programs, and Other Youth Serving Organizations to Look Like?

Monday, February 22, 2021 3 - 5 PM

To continue our Restorative Practices work together, we plan to “wave the magic wand” and figure out together what we hope the post-pandemic should be like for our families, schools, and community programs. Come together with colleagues from throughout the state and beyond to discuss how we can move forward and not return to the “same old.” If we could talk with the “movers and shakers” in our communities and state (policy leaders and change makers), what should be our collective priorities and what are our hopes and dreams for the future?

Please take a few moments to take a short survey to help us bring you a more meaningful experience.

[CLICK HERE for the survey.](#)

Please put the following upcoming convening dates on your calendar:

March 22

April 26

May 17
